Encl: (1) Definition of Terms

1. Purpose. Per reference (a), this instruction implements Director of National Intelligence policy for responding to requests for the identities of U.S. persons that were originally omitted from disseminated intelligence reports.

2. Applicability

a. This instruction applies to all U.S. Navy commands and activities performing an intelligence mission under Secretary of the Navy authority.

b. This policy applies exclusively to requests from a requesting entity, other than U.S. Navy intelligence elements, for post-publication release and dissemination of nonpublic U.S. person identity information masked in a disseminated intelligence report. This policy does not apply in circumstances where a U.S. person has consented to the dissemination of information, or communications to, from, or about, the U.S. person.

c. This policy does not affect any minimization procedures established per references (b) and (c), or other provisions of law.

d. This policy does not affect the requirements established in reference (d).

3. Background

a. Reference (a) was issued in response to Presidential Memorandum for the Director of National Intelligence of 9 January 2018. This memorandum directed the issuance and public

release of a policy requiring each element of the intelligence community (IC) develop and maintain procedures for responding to requests from Federal, State, local, tribal, or territorial government officials for non-public U.S. person identity information concerning known non-consensual U.S. persons that was originally omitted from disseminated intelligence reports.

b. Per reference (a), this instruction, and the definitions contained in enclosure (1), were developed in consultation with the Director of National Intelligence, the Attorney General, and the Secretary of Defense (SecDef).

4. Policy

a. Requests covered by this policy may only be approved by the Deputy Chief of Naval Operations for Information Warfare (CNO N2N6) and the Director of Naval Intelligence (DNI), or a designee to whom CNO N2N6 and DNI has delegated such authority in writing.

b. When an IC element other than Navy originated and masked information that is subject to a request covered by this policy, the Navy element receiving such request will forward the request to the originating IC element for further action and direct response to the requesting entity.

c. When a Navy command or activity masked information in a disseminated intelligence report that is subject to a request covered by this policy, the request will be processed as per the procedures in paragraph 6.

d. In the event of exigent circumstances or where a delay could negatively impact intelligence activities, an immediate disclosure by CNO N2N6 and DNI or a designee may be approved based on the rationale provided by the requesting entity. The rationale may be provided orally or in writing. Within 5 business days after such a disclosure, the requesting entity must provide the basis for making the request, as per the procedures in paragraph 6.

e. Per reference (a), records pertaining to covered requests, to include the disposition of such requests, whether acted upon or forwarded to another command, activity, or IC element, must be retained for not less than 5 years.

5. Responsibilities

their duties. Approving authorities may approve or deny requests in whole or in part. When a request is being either approved or denied in its entirety, the approving authority may so state without the need to provide a detailed response.
